Set & Update Fields — 349 workflows

#	Target	Domain	Entity	Workflow Name	Trigger Type	What It Does	Status
1	In-System	Assets, Plant, Tools, Stock & Materials	Asset	SendAssetValueToFormBuilder	On Success	Calls `Assets.AddAssetToFormBuilder`.	To Do
2	In-System	Assets, Plant, Tools, Stock & Materials	Asset	Set Tenant and default Type If Empty	On Success	Calls `Utilities.getRecordNumber`. Updates 5 field(s).	To Do
3	In-System	Assets, Plant, Tools, Stock & Materials	Asset	UpdateNZTAToggleFlag	On Success	Sets record field(s): Toggle_NZTA_Update.	To Do
4	In-System	Assets, Plant, Tools, Stock & Materials	Asset	Update Asset From Track	On Success	Calls `Track.UpdateAsset`.	To Do
5	In-System	Assets, Plant, Tools, Stock & Materials	Asset	Update Asset Image	On Success	Sets record field(s): Image.	To Do
6	In-System	Assets, Plant, Tools, Stock & Materials	Asset	Update Asset Spreadsheet	On Success	Calls `Assets.updateAssetSpreadsheet`.	To Do
7	In-System	Assets, Plant, Tools, Stock & Materials	Asset	Update Display	On Success	Calls `Assets.SetWorkshopAssetDisplay`, `Assets.SetAssetDisplayValue`. Updates 2 field(s).	To Do
8	In-System	Assets, Plant, Tools, Stock & Materials	Asset_Assignment_History	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
9	In-System	Assets, Plant, Tools, Stock & Materials	Asset_Class	Update Asset Stock Locations	On Success	Calls `Assets.SynchroniseAssetStockLocations`.	To Do
10	In-System	Assets, Plant, Tools, Stock & Materials	Asset_Class	Update Mechanic Manager	On Success	Custom script logic (~5 lines) — see JSON for detail.	To Do
11	In-System	Assets, Plant, Tools, Stock & Materials	Asset_Class	Update Pre-start Overdue Hour on Asset	On Success	Calls `Assets.updateHourSinceLastPreStart`.	To Do
12	In-System	Assets, Plant, Tools, Stock & Materials	Asset_Class	Update Tenant	On Success	Sets record field(s): Tenant.	To Do
13	In-System	Assets, Plant, Tools, Stock & Materials	Asset_Config	Save Settings	Button Click	Calls `Assets.SetDefaultAssetPlaceholderToAsset`, `Assets.SetDefaultWorkshopPlaceholderToAssets`, `Assets.SetDefaultAssetPlaceholderToAssets`.	To Do
14	In-System	Assets, Plant, Tools, Stock & Materials	Asset_Config_Internal	Update Asset Display Value	On Success	Calls `Assets.SetAssetDisplayValue`.	To Do
15	In-System	Assets, Plant, Tools, Stock & Materials	Asset_Materials_Item	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
16	In-System	Assets, Plant, Tools, Stock & Materials	Asset_Spreadsheet_Form	Update Asset	On Success	Custom script logic (~72 lines) — see JSON for detail.	To Do
17	In-System	Assets, Plant, Tools, Stock & Materials	Assign_Asset_Class	Update Assets	Button Click	Calls `Assets.updateHourSinceLastPreStart`, `Assets.SynchroniseAssetStockLocations`, `Assets.updateVehicle`.	To Do
18	In-System	Assets, Plant, Tools, Stock & Materials	Fuel_Log	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
19	In-System	Assets, Plant, Tools, Stock & Materials	Log_Service	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
20	In-System	Assets, Plant, Tools, Stock & Materials	Log_Service	Update Last Service on Asset	On Success	Custom script logic (~6 lines) — see JSON for detail.	To Do
21	In-System	Assets, Plant, Tools, Stock & Materials	Log_Service	Update Last Service on Asset	On Success	Custom script logic (~6 lines) — see JSON for detail.	To Do
22	In-System	Assets, Plant, Tools, Stock & Materials	Log_Service	Update Meter to Asset	On Success	Custom script logic (~28 lines) — see JSON for detail.	To Do
23	In-System	Assets, Plant, Tools, Stock & Materials	Log_Service	Update Upcoming Services	On Success	Calls `Service.updateUpcomingServiceInfo`.	To Do
24	In-System	Assets, Plant, Tools, Stock & Materials	Log_Service	Update Upcoming Services	On Success	Calls `Service.updateUpcomingServiceInfo`.	To Do
25	In-System	Assets, Plant, Tools, Stock & Materials	Materials_Item	Set Tenant	On Success	Sets record field(s): Tenant, Status.	To Do

#	Target	Domain	Entity	Workflow Name	Trigger Type	What It Does	Status
26	In-System	Assets, Plant, Tools, Stock & Materials	PE_Equipment	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
27	In-System	Assets, Plant, Tools, Stock & Materials	Service_Plan	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
28	In-System	Assets, Plant, Tools, Stock & Materials	Service_Plan	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
29	In-System	Assets, Plant, Tools, Stock & Materials	Service_Plan_Schedule	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
30	In-System	Assets, Plant, Tools, Stock & Materials	Set_Asset_Odo_Hubo_Hour	Update Asset Meter	Button Click	Calls `Service.updateSingleUpcomingService`. Creates record(s) in Asset_Log.	To Do
31	In-System	Assets, Plant, Tools, Stock & Materials	Site_Materials	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
32	In-System	Assets, Plant, Tools, Stock & Materials	Stock	Update Stock Information	On Success	Calls `Stock.UpdateStockCounts`.	To Do
33	In-System	Assets, Plant, Tools, Stock & Materials	Tenant_Asset_Settings_Inter	Update Asset Display Value	On Success	Calls `Assets.SetAssetDisplayValue`.	To Do
34	In-System	Assets, Plant, Tools, Stock & Materials	Tool	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
35	In-System	Assets, Plant, Tools, Stock & Materials	Tool	Update QR Code and Display Name	On Success	Calls `Tools.setQRcode`, `Tools.SetToolDisplayValue`. Updates 1 field(s).	To Do
36	In-System	Assets, Plant, Tools, Stock & Materials	Tool_Assignment_History	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
37	In-System	Assets, Plant, Tools, Stock & Materials	Tool_Item	Set Asset Hours Display	On Success	Calls `Transactions.CreatePlantHoursTransaction`, `Transactions.CreateToolTransaction`. Updates 2 field(s).	To Do
38	In-System	Assets, Plant, Tools, Stock & Materials	Tool_Item	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
39	In-System	Assets, Plant, Tools, Stock & Materials	Tool_Types	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
40	In-System	Assets, Plant, Tools, Stock & Materials	Toolbox_Talk	Set Date	On Success	Sets record field(s): Toolbox_Date.	To Do
41	In-System	Assets, Plant, Tools, Stock & Materials	Toolbox_Talk	Set Details URL	On Success	Sets record field(s): View_Details.	To Do
42	In-System	Assets, Plant, Tools, Stock & Materials	Toolbox_Talk	Set Details URL	On Success	Sets record field(s): View_Details.	To Do
43	In-System	Assets, Plant, Tools, Stock & Materials	Toolbox_Talk_Question	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
44	In-System	Assets, Plant, Tools, Stock & Materials	Toolbox_Talk_Question_Items	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
45	In-System	Assets, Plant, Tools, Stock & Materials	Tools_Spreadsheet	Update Tool	On Success	Custom script logic (~39 lines) — see JSON for detail.	To Do
46	In-System	Assets, Plant, Tools, Stock & Materials	Upcoming_Services	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
47	In-System	Assets, Plant, Tools, Stock & Materials	Update_Asset_Charge_Out_Type	Update Asset Charge Out Types	Button Click	Custom script logic (~55 lines) — see JSON for detail.	To Do
48	In-System	Assets, Plant, Tools, Stock & Materials	Update_WoF	Update Vehicle WoF Expiry	On Success	Custom script logic (~2 lines) — see JSON for detail.	To Do
49	In-System	Billing & Finance	Add_Transaction_Note	Update Notes	Button Click	Custom script logic (~5 lines) — see JSON for detail.	To Do
50	In-System	Billing & Finance	Additional_Item	Update Transaction	On Success	Calls `Transactions.CreateAdditionalTransaction`. Updates 1 field(s).	To Do
51	In-System	Billing & Finance	Bill	Set Information Fields	On Success	Calls `Bills.SetInfoDisplayFields`.	To Do

#	Target	Domain	Entity	Workflow Name	Trigger Type	What It Does	Status
52	In-System	Billing & Finance	Bill	Set Tenant & Financial System On Line On Success	On Success	Custom script logic (~17 lines) — see JSON for detail.	To Do
53	In-System	Billing & Finance	Bill	Update Amount Due & Due Date	On Success	Calls `Bills.UpdateAmountDue`, `Bills.CalculateDueDate`. Updates 1 field(s).	To Do
54	In-System	Billing & Finance	Bill	Update Bill Connector On Bill Line Items	On Success	Custom script logic (~6 lines) — see JSON for detail.	To Do
55	In-System	Billing & Finance	Bill_Allocation	update Allocation	On Success	Calls `BillAllocations.SetInfoDisplayFields`.	To Do
56	In-System	Billing & Finance	Bill_Credit_Note	Set Tenant & Financial System On Line On Success	On Success	Custom script logic (~7 lines) — see JSON for detail.	To Do
57	In-System	Billing & Finance	Bill_Credit_Note	Update the Error Checking	On Success	Calls `Bills.CheckBillErrors`. Updates 1 field(s).	To Do
58	In-System	Billing & Finance	Bill_Credit_Note_Allocation	Set Tenant	On Success	Sets record field(s): Tenant, Supplier, Allocation_Time.	To Do
59	In-System	Billing & Finance	Bill_Line_Items	Set Tenant	On Success	Sets record field(s): Tenant, Supplier_Connector.	To Do
60	In-System	Billing & Finance	Chart_of_Accounts	Set Tenant	On Success	Calls `Finance.SetCoAConstructionType`. Updates 3 field(s).	To Do
61	In-System	Billing & Finance	Contract_Retentions	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
62	In-System	Billing & Finance	Credit_Note_Line_Item	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
63	In-System	Billing & Finance	Expense_Type	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
64	In-System	Billing & Finance	Financial_Delegation_Auth...	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
65	In-System	Billing & Finance	Invoice	Set Tenant	On Success	Custom script logic (~9 lines) — see JSON for detail.	To Do
66	In-System	Billing & Finance	Invoice	Set Tenant	On Success	Calls `Invoices.Approve`. Updates 3 field(s).	To Do
67	In-System	Billing & Finance	Invoice	Update Line Item Connectors	On Success	Custom script logic (~5 lines) — see JSON for detail.	To Do
68	In-System	Billing & Finance	Invoice_Line_Items	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
69	In-System	Billing & Finance	Payment_Claim_Document	Update Tenant	On Success	Custom script logic (~1 lines) — see JSON for detail.	To Do
70	In-System	Billing & Finance	Product_Price_Book	Set Tenant	On Success	Sets record field(s): Tenant, Status, Margin, Mark_Up.	To Do
71	In-System	Billing & Finance	Provisional_Payment_Claim...	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
72	In-System	Billing & Finance	Purchase_Order	Set Tenant, Requested User & User Filter On Success	On Success	Calls `PurchaseOrder.UpdateReceiptedQty`, `Bills.updateAlert`, `portal.loginUserProfileDivVariables.GetFi	To Do
73	In-System	Billing & Finance	Purchase_Order_Adjustment	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
74	In-System	Billing & Finance	Purchase_Order_Line_Item	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
75	In-System	Billing & Finance	Purchasing_Config	Save Settings	Button Click	Creates record(s) in Purchasing_Config_Internal, Tenant_Purchasing_Config_Internal, Audit_Log.	To Do
76	In-System	Billing & Finance	Retention_Plan	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
77	In-System	Billing & Finance	Retention_Schedule	Set Tenant	On Success	Sets record field(s): Tenant.	To Do

#	Target	Domain	Entity	Workflow Name	Trigger Type	What It Does	Status
78	In-System	Billing & Finance	Retentions	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
79	In-System	Billing & Finance	Stock_Transaction	Set Actioned By	On Success	Sets record field(s): Actioned_By.	To Do
80	In-System	Billing & Finance	Stock_Transaction	Update Stock Numbers	On Success	Calls `Stock.UpdateStockCounts`.	To Do
81	In-System	Billing & Finance	Sub_Contractor_Claim_Items	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
82	In-System	Billing & Finance	Tax_Rates	Set Tenant	On Success	Sets record field(s): Tenant, Integrated_Financial_System, Status.	To Do
83	In-System	Billing & Finance	Tax_Rates_Xero	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
84	In-System	Billing & Finance	Transactions	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
85	In-System	Billing & Finance	Unit_Priced_Payment_Claim	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
86	In-System	Billing & Finance	Update_Bill_Assignment	Update Bills and Receipt	Button Click	Calls `Bills.Recode`, `Bills.Receipt`, `Bills.updateAssignedApprovers`, `Bills.SetInfoDisplay`.	To Do
87	In-System	Billing & Finance	Workshop_Transactions	Update Financial Information	On Success	Calls `Workshop.WorkshopTransactionApproval`.	To Do
88	In-System	CRM: Clients, Suppliers & Leads	Client	Set Tenant	On Success	Sets record field(s): Tenant, Status.	To Do
89	In-System	CRM: Clients, Suppliers & Leads	Client	Set Tenant	On Success	Calls `Utilities.createTinyURL`, `Site.setQRcode`, `Client.setInfoDisplay`.	To Do
90	In-System	CRM: Clients, Suppliers & Leads	Client	Update Client Number	On Success	Calls `Utilities.getRecordNumber`. Updates 3 field(s).	To Do
91	In-System	CRM: Clients, Suppliers & Leads	Client_Contract	Update Fields on New Entry	On Success	Calls `ClientContract.Approve`. Updates 3 field(s).	To Do
92	In-System	CRM: Clients, Suppliers & Leads	Client_Contract	Update Tenant	On Success	Sets record field(s): Tenant.	To Do
93	In-System	CRM: Clients, Suppliers & Leads	Contact_Type	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
94	In-System	CRM: Clients, Suppliers & Leads	Staff_Employment_Contract	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
95	In-System	CRM: Clients, Suppliers & Leads	Sub_Contractor_Accreditation	Set Tenant	On Success	Calls `Supplier.setInfoDisplay`. Updates 1 field(s).	To Do
96	In-System	CRM: Clients, Suppliers & Leads	Sub_Contractor_Accreditation	Set Tenant	On Success	Calls `Supplier.setInfoDisplay`. Updates 1 field(s).	To Do
97	In-System	CRM: Clients, Suppliers & Leads	Supplier	Update Due Date of Linked Bills	On Success	Calls `Supplier.updateDueDateForBills`.	To Do
98	In-System	CRM: Clients, Suppliers & Leads	Supplier	Update Supplier Number	On Success	Calls `Utilities.getRecordNumber`. Updates 3 field(s).	To Do
99	In-System	CRM: Clients, Suppliers & Leads	Supplier_Contact	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
100	In-System	CRM: Clients, Suppliers & Leads	Supplier_Statement	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
101	In-System	CRM: Clients, Suppliers & Leads	Update_Supplier	Update Supplier	Button Click	Calls `Xero.LoadSupplierDetailsIntoXero`, `MYOB.UpdateSupplierInMYOB`. Integrates with Xero, NZBN (NZBN ID).	To Do
102	In-System	Health, Safety, Quality & Environmental Management	Asset_Incident_Injury	Set Incident Number	On Success	Calls `Utilities.padWithLeadingZeros`, `Incident.AutoAssignInvestigation`. Updates 2 field(s).	To Do
103	In-System	Health, Safety, Quality & Environmental Management	Asset_Pre_start_Schedule_Frequency	Update Pre-start Frequency	Button Click	Calls `Assets.updateHourSinceLastPreStart`, `Assets.updateHoursUsageSinceLastPreStart`.	To Do

#	Target	Domain	Entity	Workflow Name	Trigger Type	What It Does	Status
104	In-System	Health, Safety, Quality & Environment	C(HSQE) Incident1	Update Incident	On Success	Custom script logic (~7 lines) — see JSON for detail.	To Do
105	In-System	Health, Safety, Quality & Environment	C(HSQE) Competency_Assessment	Update Staff Competency	On Success	Calls `StaffCompetency.UpdateStaffCompetency`.	To Do
106	In-System	Health, Safety, Quality & Environment	C(HSQE) Competency_Assessment_Tenants	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
107	In-System	Health, Safety, Quality & Environment	C(HSQE) Competency_Score_Label_Edit	Update Score Label	Button Click	Custom script logic (~9 lines) — see JSON for detail.	To Do
108	In-System	Health, Safety, Quality & Environment	C(HSQE) Competency_Score_Preset	Update Score Number	On Success	Custom script logic (~7 lines) — see JSON for detail.	To Do
109	In-System	Health, Safety, Quality & Environment	E(HSQE) Environmental_Inspections	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
110	In-System	Health, Safety, Quality & Environment	H(HSQE) Settings	Save Settings	Button Click	Creates record(s) in HSQE_Settings_Internal, Tenant_HSQE_Settings_Internal_Audit Log.	To Do
111	In-System	Health, Safety, Quality & Environment	H(HSQE) Category	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
112	In-System	Health, Safety, Quality & Environment	H(HSQE) Risk_Mitigation	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
113	In-System	Health, Safety, Quality & Environment	I(HSQE) Initiation_Plan	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
114	In-System	Health, Safety, Quality & Environment	I(HSQE) Investigation_Report	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
115	In-System	Health, Safety, Quality & Environment	I(HSQE) Type	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
116	In-System	Health, Safety, Quality & Environment	P(HSQE) Check	Set Date	On Success	Calls `Assets.SetWorkshopAssetDisplay`. Updates 1 field(s).	To Do
117	In-System	Health, Safety, Quality & Environment	P(HSQE) Check	Set Edited to False	On Success	Sets record field(s): Edited.	To Do
118	In-System	Health, Safety, Quality & Environment	P(HSQE) Check	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
119	In-System	Health, Safety, Quality & Environment	P(HSQE) Check	Set Tenant and Asset on Subform	On Success	Sets record field(s): Tenant.	To Do
120	In-System	Health, Safety, Quality & Environment	P(HSQE) Check	Set URL	On Success	Sets record field(s): View_Information.	To Do
121	In-System	Health, Safety, Quality & Environment	P(HSQE) Check	Update Meter to Asset	On Success	Custom script logic (~83 lines) — see JSON for detail.	To Do
122	In-System	Health, Safety, Quality & Environment	P(HSQE) Certification_Certificates	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
123	In-System	Health, Safety, Quality & Environment	P(HSQE) Question	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
124	In-System	Health, Safety, Quality & Environment	P(HSQE)	Update Profile	Button Click	Calls `Carjam.CheckDriversLicence`. Integrates with Carjam (NZ vehicle).	To Do
125	In-System	Health, Safety, Quality & Environment	P(HSQE) Stateless	Update Profile	Button Click	Calls `portal.assignUserInProfile`.	To Do
126	In-System	Health, Safety, Quality & Environment	S(HSQE) Site	Update Site Information	On Success	Custom script logic (~5 lines) — see JSON for detail.	To Do
127	In-System	Health, Safety, Quality & Environment	S(HSQE) Emergency_and_Response	Save logo	On Success	Sets record field(s): logo.	To Do
128	In-System	Health, Safety, Quality & Environment	S(HSQE) Section_Checklist	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
129	In-System	Health, Safety, Quality & Environment	S(HSQE) Specific_Induction	Set Tenant and Conductor	On Success	Sets record field(s): Tenant, Conducted_By.	To Do

#	Target	Domain	Entity	Workflow Name	Trigger Type	What It Does	Status
130	In-System	Health, Safety, Quality & Environment (HSQE)	StaffCompetency	Update Staff Competency Details	On Success	Calls `StaffCompetency.UpdateStaffCompetency`.	To Do
131	In-System	Health, Safety, Quality & Environment (HSQE)	StaffCompetency_File	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
132	In-System	Health, Safety, Quality & Environment (HSQE)	Supplier_Inurance	Set Tenant	On Success	Calls `Supplier.setInfoDisplay`. Updates 1 field(s).	To Do
133	In-System	Health, Safety, Quality & Environment (HSQE)	TenancySettings_Audit_Log	Update Activity Item Display Value	On Success	Calls `ActivityItems.CreateDescriptionString`.	To Do
134	In-System	Health, Safety, Quality & Environment (HSQE)	UpdateStaffCompetency_Level	Update Level	Button Click	Custom script logic (~11 lines) — see JSON for detail.	To Do
135	In-System	Health, Safety, Quality & Environment (HSQE)	Visitor	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
136	In-System	Health, Safety, Quality & Environment (HSQE)	Visitor	Update Visitor Information	On Success	Custom script logic (~6 lines) — see JSON for detail.	To Do
137	In-System	Health, Safety, Quality & Environment (HSQE)	WorkPermit	set tenant	On Success	Sets record field(s): Tenant.	To Do
138	In-System	Jobs & Dispatch	Decline_Job_Dispatch	Set Tenant and Staff	On Success	Sets record field(s): Tenant, Staff.	To Do
139	In-System	Jobs & Dispatch	Filter_Job_Tasks	Send Filters to Page	Button Click	Custom script logic (~5 lines) — see JSON for detail.	To Do
140	In-System	Jobs & Dispatch	Job_Delay	Set Tenant	On Success	Sets record field(s): Tenant.	To Do
141	In-System	Jobs & Dispatch	Job_Delay_Reason	Set Tenant	On Success	Sets record field(s): Tenant.	To Do

12	In-System	Health, Safety, Quality & Environmental	Assign_Tags	Assign Tags to Records	Button Click	Custom script logic (~148 lines) — see JSON for detail.	To Do
13	In-System	Jobs & Dispatch	Assign_Staff_to_Job_Card	Assign Staff	Button Click	Calls `Notification.SendNotifications`. Sends in-app notification.	To Do
14	In-System	Jobs & Dispatch	Assign_Staff_to_Job_Dispatch	Update Staff on Job Dispatch	Button Click	Calls `Notification.SendNotifications`. Sends in-app notification.	To Do
15	In-System	Jobs & Dispatch	Decline_Job_Dispatch	Decline Job Dispatch	On Success	Calls `JobDispatch.Decline`. Updates 1 field(s).	To Do
16	In-System	Jobs & Dispatch	Invoice_Job_Dispatch	Mark Job Dispatch as Invoiced	Button Click	Custom script logic (~7 lines) — see JSON for detail.	To Do
17	In-System	Jobs & Dispatch	Job_Dispatch_Note	Add Note to Job Dispatch	Button Click	Custom script logic (~10 lines) — see JSON for detail.	To Do
18	In-System	Jobs & Dispatch	Manage_Job_Dispatch	Filter Job Dispatch	Button Click	Custom script logic (~22 lines) — see JSON for detail.	To Do
19	In-System	Other / Uncategorized	Assign_Mechanic	Assign Mechanic	Button Click	Custom script logic (~4 lines) — see JSON for detail.	To Do
20	In-System	Projects, Tasks & Activities	AssignProjectPopup	Assign Staff to Projects	Button Click	Calls `Notification.SendNotifications`. Sends in-app notification.	To Do
21	In-System	Projects, Tasks & Activities	Assign_Assets_to_Project	Assign assets to project	Button Click	Calls `Scheduler.addProject`.	To Do
22	In-System	Projects, Tasks & Activities	Assign_Vehicle_to_Project	Assign Vehicles to Project	Button Click	Calls `Notification.SendNotifications`. Sends in-app notification.	To Do
23	In-System	Projects, Tasks & Activities	Assign_Vehicle_to_Project	Unassign	Button Click	Calls `Notification.SendNotifications`. Sends in-app notification.	To Do
24	In-System	Projects, Tasks & Activities	Project	Update Assigned Staff	On Success	Sets record field(s): Assigned_Staff, Assigned_Staff_Filter.	To Do
25	In-System	Projects, Tasks & Activities	Project_Template	Update Assigned Staff	On Success	Sets record field(s): Assigned_Staff, Assigned_Staff_Filter.	To Do

#	Target	Domain	Entity	Workflow Name	Trigger Type	What It Does	Status
26	In-System	Projects, Tasks & Activities	Reassign_Additional_Item_Task	Reassign Tasks From Additional Items	Button Click	Calls `Projects.updateWorkActivityMetrics`, `Tasks.updateTaskMetricsForProject`, `Transactions.updateVariation`.	To Do
27	In-System	Projects, Tasks & Activities	Reassign_Materials_Task	Reassign Tasks From Materials	Button Click	Calls `Projects.updateWorkActivityMetrics`, `Tasks.updateTaskMetricsForProject`, `Transactions.updateVariation`.	To Do
28	In-System	Projects, Tasks & Activities	Reassign_Transaction_Task	Reassign Transactions	Button Click	Custom script logic (~120 lines) — see JSON for detail.	To Do
29	In-System	Staff & HR	Assign_Staff_Setup	Assign Staff to Project	Button Click	Calls `Scheduler.addProject`.	To Do
30	In-System	Staff & HR	Update_Assigned_Staff	Update Assigned Staff	Button Click	Calls `Scheduler.addProject`.	To Do
31	In-System	Time, Attendance & Labour	Reassign_Cartage_Hour_Task	Reassign Tasks From Cartage Hours	Button Click	Calls `Projects.updateWorkActivityMetrics`, `Tasks.updateTaskMetricsForProject`, `Transactions.updateVariation`.	To Do
32	In-System	Time, Attendance & Labour	Reassign_Labour_Hour_Task	Reassign Tasks From Labour Hours	Button Click	Calls `Projects.updateWorkActivityMetrics`, `Tasks.updateTaskMetricsForProject`, `Transactions.updateVariation`.	To Do
33	In-System	Time, Attendance & Labour	Reassign_Plant_Hours_Task	Reassign Tasks From Plant Hours	Button Click	Calls `Projects.updateWorkActivityMetrics`, `Tasks.updateTaskMetricsForProject`, `Transactions.updateVariation`.	To Do
34	WM	Health, Safety, Quality & Environment (HSE)	Pre-Start_Check	Assign Asset to Project	On Success	Creates record(s) in Asset, Asset_Assignment_History.	To Do
35	WM	Jobs & Dispatch	Job_Dispatch	Update Dispatch Lines	On Success	Calls `JobDispatch.CreateStockTransactionAndMaterialItem`, `Notification.SendNotification`. Sends in-app notification.	To Do
36	WM	Jobs & Dispatch	Jobsheet	Assign Asset to Project	On Success	Creates record(s) in Asset, Asset_Assignment_History.	To Do
37	WM	Settings, Configuration & System	Assign_Administrator	send to assigned administrator	On Success	Sends email.	To Do
38	WM	Time, Attendance & Labour	Timesheets_Form	Assign Asset to Project	On Success	Creates record(s) in Asset, Asset_Assignment_History.	To Do

Calculations — 37 workflows

#	Target	Domain	Entity	Workflow Name	Trigger Type	What It Does	Status
1	In-System	Assets, Plant, Tools, Stock & Materials	Asset_Class	Update Vehicle Type Count	On Success	Calls `Vehicles.updateVehicleTypeCount`. Updates 1 field(s).	To Do
2	In-System	Assets, Plant, Tools, Stock & Materials	Tool	Update Tool Type Count	On Success	Calls `Tools.updateToolTypeCount`.	To Do
3	In-System	Assets, Plant, Tools, Stock & Materials	Tool_Types	Update Vehicle Type Count	On Success	Calls `Vehicles.updateVehicleTypeCount`, `Tools.updateToolTypeCount`.	To Do
4	In-System	Assets, Plant, Tools, Stock & Materials	Vehicle_Inspection	CalculatePassPercentage	On Success	Sets record field(s): PassPercentage.	To Do
5	In-System	Billing & Finance	Bill	Update PO and Reference Count	On Success	Calls `Bills.updateAlert`, `Bills.SetInfoDisplayFields`.	To Do
6	In-System	Billing & Finance	Bill_Credit_Note_Allocation	Update Total Allocated	On Success	Calls `CreditNotes.UpdateCreditAllocationTotals`. Updates 1 field(s).	To Do
7	In-System	Billing & Finance	Material_Receipt	Set Tenant and Update Total	On Success	Calls `Receipt.Approve`, `portal.loginUserProfile`, `Variables.GetFieldWorkerProfilesToUpdate`. Updates 6 field(s).	To Do
8	In-System	Billing & Finance	Purchase_Order	Calculation Total Reset	On Success	Sets record field(s): Po_Coded, Sub_Total, GST, Total, Work_Activity.	To Do
9	In-System	CRM: Clients, Suppliers & Leads	Supplier	UpdateBillLineItemsAccountAndTaxRate	On Success	Calls `Supplier.UpdateAccountAndTaxRateForBills`.	To Do
10	In-System	CRM: Clients, Suppliers & Leads	Supplier_Statement	Update Meta Counts	On Success	Sets record field(s): Number_of_Bills_in_Statement, Number_of_Matched_Bills.	To Do
11	In-System	Health, Safety, Quality & Environmental	PreStart_Check	Update Summary Field	On Success	Calls `AssetPreStart.SetInfoDisplayFields`.	To Do
12	In-System	Jobs & Dispatch	Job_Dispatch	Calculate Costs and Update Contact Info	On Success	Calls `JobDispatch.CalculateCostsUpdateContact`.	To Do
13	In-System	Jobs & Dispatch	Jobsheet	Calculate Labour Cost	On Success	Sets record field(s): Total_Project_Labour_Cost.	To Do
14	In-System	Jobs & Dispatch	Jobsheet	Finally Update All Calculated Information	On Success	Calls `Utilities.decimalHoursBetween`, `Utilities.decimalHoursBetweenTimes`, `TaskWork.updateCost`, `Utilities.updateCost`.	To Do
15	In-System	Projects, Tasks & Activities	Client_Contract_Work_Activity	Update Total	On Success	Sets record field(s): Total.	To Do
16	In-System	Projects, Tasks & Activities	Project	Update Document Count	On Success	Calls `Projects.updateActivityCounter`.	To Do
17	In-System	Projects, Tasks & Activities	Project_Template_Work_Activity	Update Totals and Close	On Success	Sets record field(s): Total.	To Do
18	In-System	Projects, Tasks & Activities	Project_Work_Activity	Update Total and Activies Counters on Project	On Success	Calls `Projects.updateActivityCounter`. Updates 1 field(s).	To Do
19	In-System	Projects, Tasks & Activities	Quote_Template_Work_Activity	Update Total	On Success	Sets record field(s): Total.	To Do
20	In-System	Projects, Tasks & Activities	Quote_Work_Activity	Update Total	On Success	Calls `Quotes.updateQuoteTotals`.	To Do
21	In-System	Projects, Tasks & Activities	Quote_Work_Activity	Update Totals After Delete	On Success	Calls `Quotes.updateQuoteTotals`.	To Do
22	In-System	Quotes, Estimating, Tenders & Variations	Client_Quote	Create Summary and Schedule if Breakdown	On Success	Sets record field(s): Quoted_Labour_Hours, Quoted_Labour_Cost, Quoted_Labour_Fixtures, Quoted_Cartage.	To Do
23	In-System	Quotes, Estimating, Tenders & Variations	Client_Quote	Update Summaries	On Success	Calls `Quotes.updateQuoteTotals`.	To Do
24	In-System	Time, Attendance & Labour	Labour_Hour	Recalculate Labour Cost Based on Cost Rule	On Success	Calls `LabourHours.updateLabourCosts`.	To Do
25	In-System	Time, Attendance & Labour	Leave_Form	Finally Calculate Hour and Day	On Success	Calls `Leave.StaffWorkDaysBetween`, `Leave.getHolidays`. Updates 2 field(s).	To Do

#	Target	Domain	Entity	Workflow Name	Trigger Type	What It Does	Status
26	In-System	Time, Attendance & Labour	Time_Log	Calculate Job Card Hours	On Success	Custom script logic (~10 lines) — see JSON for detail.	To Do
27	In-System	Time, Attendance & Labour	Timesheets_Form	Finally Update All Calculated Information	On Success	Calls `Utilities.decimalHoursBetween`, `Utilities.decimalHoursBetweenTimes`, `Allowance.GetTotalAllowance`.	To Do
28	In-System	Time, Attendance & Labour	Timesheets_Form	Update Task Work Total Cost/Price	On Success	Calls `TaskWork.updateCost`.	To Do
29	WM	Assets, Plant, Tools, Stock & Materials	Schedule_Asset_Pre_start_Call	Calculate Time Since Last Pre-start	Scheduled	Calls `Assets.updateHourSinceLastPreStart`, `Assets.updateHoursUsageSinceLastPreStart`. Updates 2 fields.	To Do
30	WM	Billing & Finance	Schedule_MYOB_ADV_ChartOfAccounts_Sync	Scheduled MYOB ADVANCED Chart Of Accounts Sync	Scheduled	Calls `MYOB_Advanced.Run_ChartOfAccounts_Sync`.	To Do
31	WM	Billing & Finance	Schedule_MYOB_Accounts_Sync	Scheduled MYOB Accounts Sync	Scheduled	Calls `MYOB.ScheduledMYOBAccountsSync`.	To Do
